DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of **Group I, claims 1-22, 36-39** in the reply filed on **11/17/2005** is acknowledged.

Double Patenting

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims **1-22,36-39** are provisionally rejected on the ground of nonstatutory double patenting over claims **1-16, and 30-34** of copending **Application No. 10/809798**. This is a provisional double patenting rejection since the conflicting claims have not yet been patented.

The subject matter claimed in the instant application is fully disclosed in the referenced copending application and would be covered by any patent granted on that copending application since the referenced copending application and the instant application are claiming common subject matter, as follows:

Art Unit: 3743

- Claims 1 and 7: read on claim 1; “two upper suspension” reads on “two anterior suspension straps” and “two lower suspension” reads on “two posterior suspension straps”
- Claim 2: reads on claim 2 and 3
- Claim 3: reads on claim 4
- Claim 4: reads on claim
- Claim 5: is considered broadly recited under claim 3
- Claim 6: is considered broadly recited under claim 1 “middle suspension straps”
- Claim 8: reads on claim 9
- Claim 9-12: respectively read on claims 5-8
- Claims 13-14: respectively read on claims 10-11
- Claims 15-16: respectively read on claims 13-14
- Claim 17: reads on claim 16
- Claim 18: reads on claim 15
- Claims 19-20: are considered broadly recited under claim 16
- Claim 21: is considered broadly recited under claim 15
- Claim 22: is considered broadly recited under claims 31-34
- Claims 36, 38-39: are considered broadly recited under claim 30
- Claim 37: reads on claim 31

Furthermore, there is no apparent reason why applicant would be prevented from presenting claims corresponding to those of the instant application in the other copending application. See *In re Schneller*, 397 F.2d 350, 158 USPQ 210 (CCPA 1968). See also MPEP § 804.

4. Examiner has done a through search and indicated as many patent(s)/pending application(s) that are subject to Double Patenting rejections. However due to the time limit given to examine each application, the Examiner might have overlooked other pending applications or patents that would be considered for Double Patenting rejection. Therefore, the applicant is requested to inform the Examiner to any such corresponding pending application(s) and/or Patent(s) and file Terminal Disclaimer accordantly.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shumaya B. Ali whose telephone number is 571-272-6088. The examiner can normally be reached on M-F 8:30-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Henry Bennett can be reached on 571-272-4791. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
